

Publius

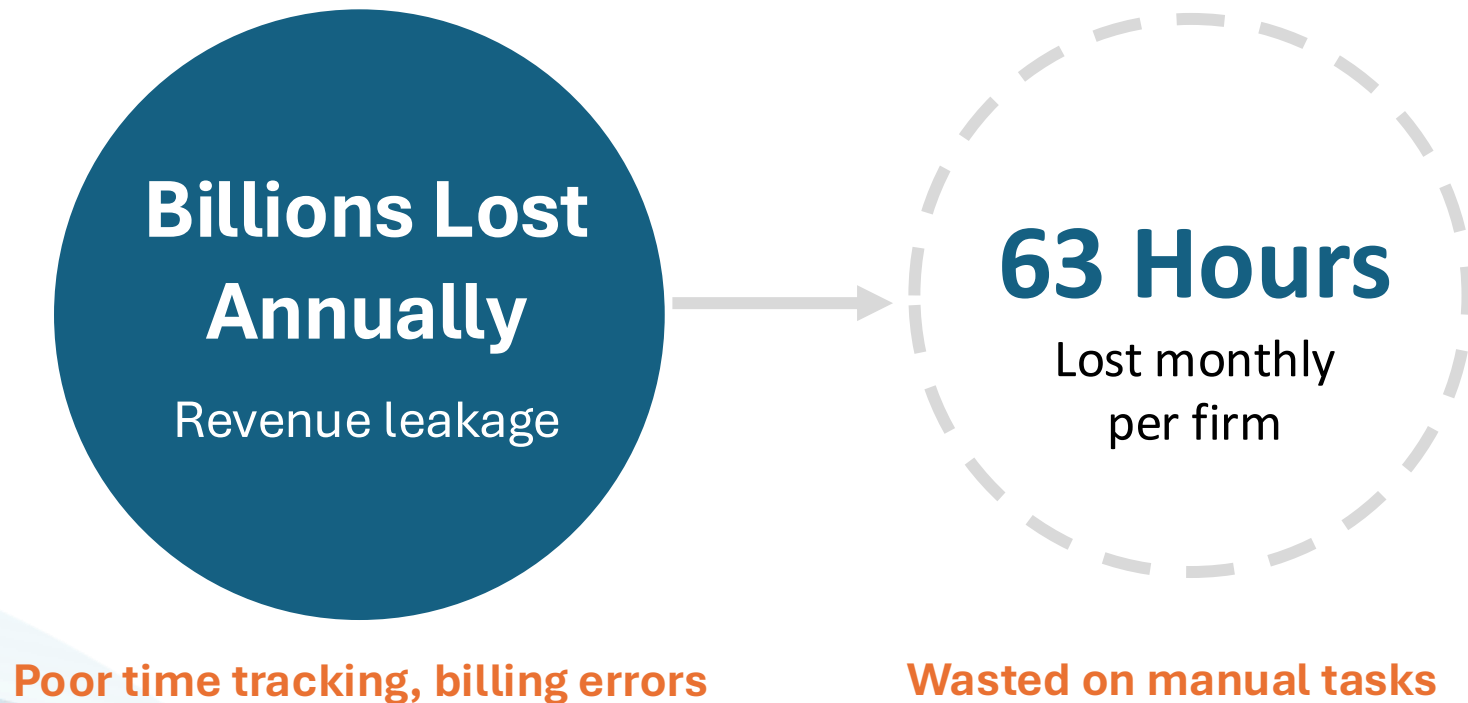

AI Powered end-to-end Legal Platform.

Built for solo practitioners and small law firms • April 2026

Problem

Law firms run cases across fragmented tools.

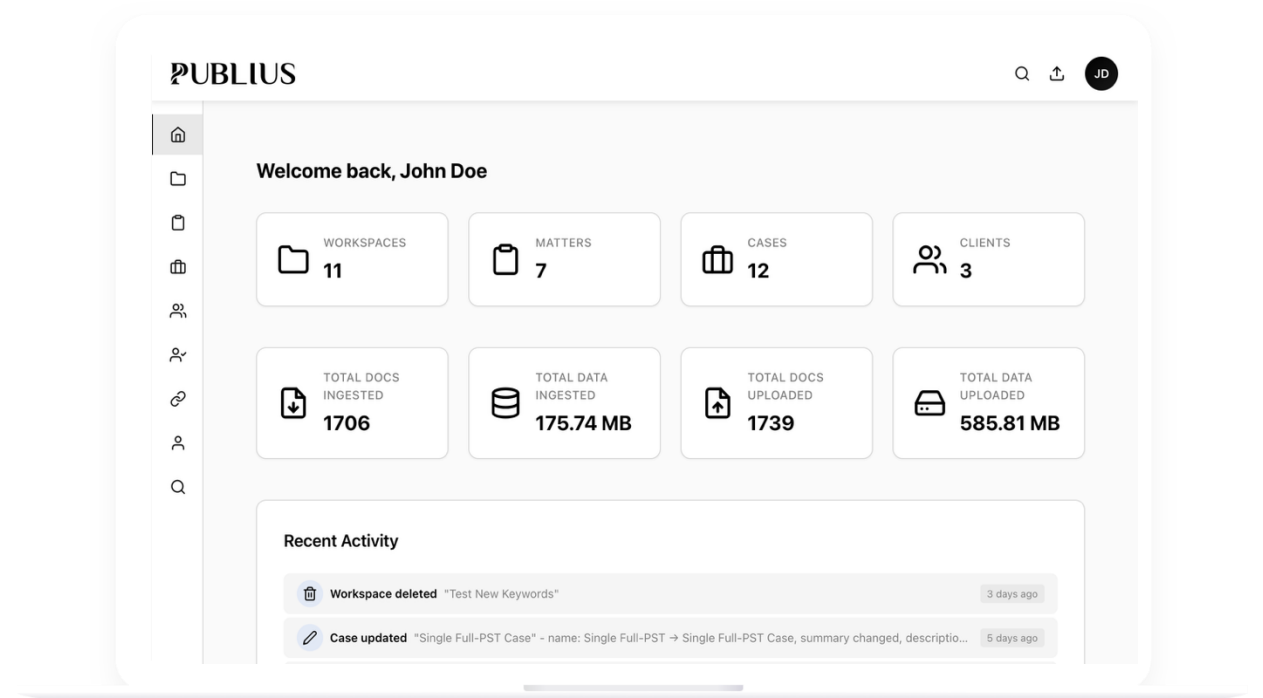

Result: scattered docs, duplicated effort, poor visibility, and too much time lost chasing facts.

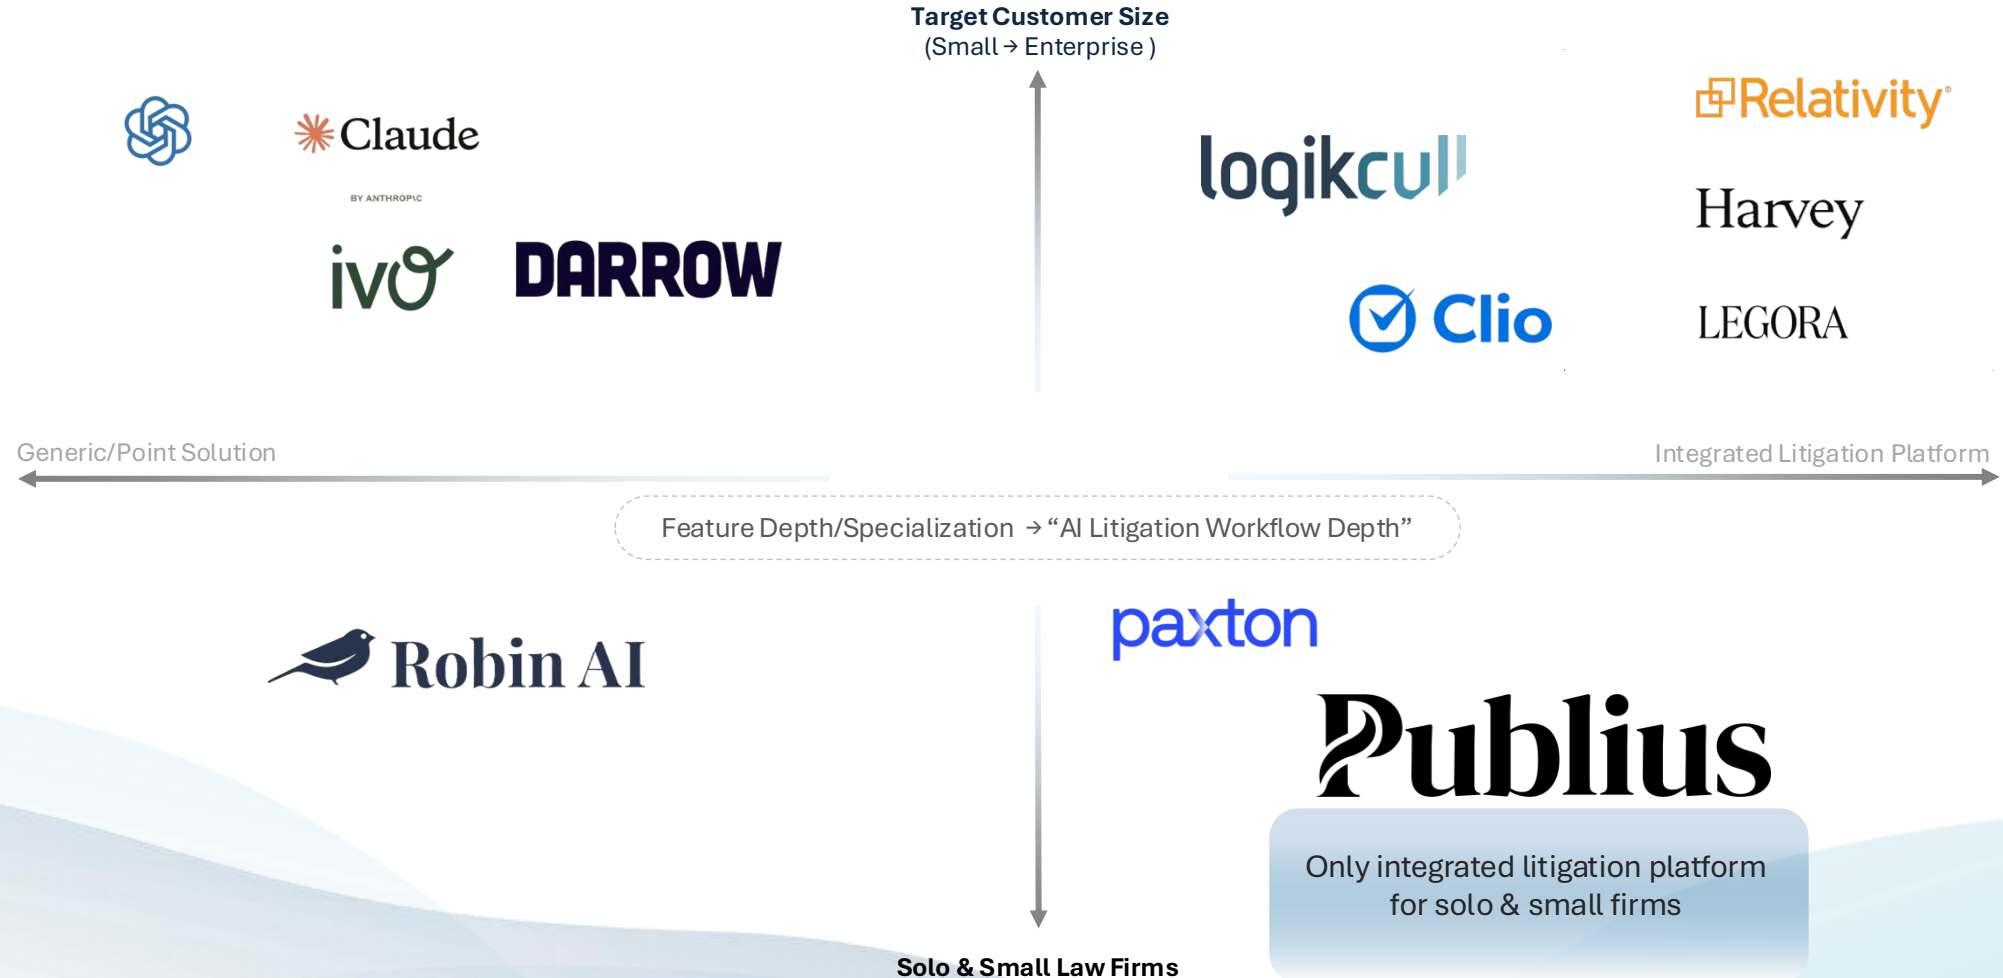

Solution

Replace Public AI, cloud drives, scattered folders, and legacy tools with a single **unified** AI-powered platform.

Cloud-first today, with private and premium on-premises options.
